## WHO AM I?

I am a **data engineer**, software developer, and dad joke advocate. I thrive in the search of unexplored insights into common day tasks. I like to find clean solutions to problems and am constantly working to improve my knowledge day by day.

## WORK EXPERIENCE

2020 – today	<b>Data Engineer at Prensa Iberica</b>	Madrid
	Shaped a 1000+ employees news press from subjective culture to data driven	
	<ul style="list-style-type: none"><li>- Stream the daily inflow of data to different endpoints. (<a href="#">Airflow</a>, <a href="#">BigQuery</a>, <a href="#">Kafka</a>, <a href="#">Python</a>)</li><li>- Built custom client-side A/B Testing solution (<a href="#">Google Tag Manager</a>)</li><li>- Data standardization of +30 sites derived from a recent adquisition (<a href="#">Integrated Datalayer &amp; CMS</a>)</li><li>- Migration of the internal CMP to <a href="#">Piano</a>, guaranteeing funnel and subscription analytics compatibilities.</li><li>- Established CI/CD procedures. This way the team has been given more flexibility and security towards new changes and refactoring. (<a href="#">Gitlab</a>, <a href="#">Docker</a>, <a href="#">Rancher</a>)</li></ul>
